'The Affair' resolves the departure of a major character in its final season

By Kenneth Andeel
TV Media

One of Showtime's award-winning prestige dramas is coming to an end. On Sunday, Aug. 25, the fifth and final season of "The Affair" kicks off, and this conclusion promises to resolve the cliffhangers of Season 4 and reward fans who have been loyal to the series for five years with satisfying closure.

"The Affair" began as a relatively focused experiment that told the story of an illicit relationship between two married individuals and the consequences of said affair. The show used multiple character perspectives, flashbacks and flashforwards to unfurl the drama, and it established early on that none of the main characters were reliable narrators. It was suspenseful and subtle, and initially the story of "The Affair" was designed to be contained in a single season. The success of the experiment led to renewal after renewal, and here we are five seasons later.

The show boasts an impressive cast, and the ensemble is one of the reasons the series works so well. The series was built around the story of waitress Alison Lockhart, played by Ruth Wilson ("Jane Eyre," 2006). Alison was in a dark place after the loss of her child and made up one half of the titular affair — the other is Noah Solloway, played by Dominic West ("The Wire"). Noah is a writer and a school teacher with what most would consider the perfect family: he has four beautiful children with his wife and first love, but, of course, all is not as rosy as it seems. While both lead characters are sympathetic, they are also deeply flawed, and neither is a particularly reliable narrator.

Two television veterans make up the supporting backbone of the series: Joshua Jackson ("Fringe") played Alison's husband, Cole, and Noah's long-suffering wife, Helen, is played by Maura Tierney ("ER"). Both struggled hard to keep their respective marriages alive, but the flashforwards reveal early on that things never get back to normal for the jilted spouses.

Fans are in for some major changes this season, but before I tell you about the losses, let me tell you what the show has gained. Yet another decorated actor from film and television has joined the cast: Anna Paquin ("True Blood") plays the grown-up version of Alison and Cole's daughter, Joanie.

Now to the losses. The aforementioned cliffhanger was about as big as they get for a television show: Alison was found dead after an apparently successful suicide, but in the penultimate episode of the season, it was revealed that she had actually been murdered. The sad details of Alison's life and death are sure to affect all of the characters in a big way in Season 5, but a grown-up Joanie will be especially interesting to watch. Whether the crime will be solved remains to be seen.

Killing off a lead character is obviously a huge risk for a show to take, but in this particular case, it was unavoidable: Wilson asked to leave the show, so the writers were forced to find a way for Alison to disappear. Thanks to the myriad of questionable and self-destructive decisions the character has made over the course of the series, there were likely a lot of options.

Back to Thra

Netflix presents the prequel series 'The Dark Crystal: Age of Resistance'

WHAT'S NEW ON NETFLIX:

"The Dark Crystal: Age of Resistance"

Many millennials will remember director Jim Henson's 1982 dark fantasy/adventure film "The Dark Crystal." The film brought viewers to the magical world of Thra, which was filled with elf-like creatures called Gelflings, peaceful wizards called Mystics, evil lizard-like birds known as Skeksis and, of course, the powerful gem and life source: the Dark Crystal. Now, nearly four decades later, the Jim Henson Company takes us back to Thra in the Netflix original series "The Dark Crystal: Age of Resistance." The series acts as a prequel to the original film and follows three Gelfings as they start a rebellion and embark on a journey to save their world. Creators have pulled together a star-studded cast, with Taron Egerton ("Rocketman," 2019) and Nathalie Emmanuel ("Game of Thrones") as leads, not to mention supporting actors Mark Hamill ("Star Wars: The Last Jedi," 2017), Helena Bonham Carter ("Ocean's Eight," 2018), Andy Samberg ("Brooklynn Nine-Nine"), Awkwafina ("The Farewell," 2019) and many more. Return to Thra on Friday, Aug. 30, when "The Dark Crystal: Age of Resistance" premieres on Netflix.

Rian from "The Dark Crystal: Age of Resistance"

"The A List"

On Friday, Aug. 30, don't miss the premiere of this teen drama. Set in a seemingly idyllic summer camp, the British series follows "Queen Bee" Mia (Lisa Ambalavanar, "Doctors") as her hopes of summer romance and social dominance come crashing down with the arrival of Amber (Ellie Duckles, "The Bay"). Effortlessly glamorous and confident, Amber is instantly Mia's enemy and slowly draws all of Mia's followers to her side. This is about more than just popularity, though, as Mia senses something unnatural in Amber and her cold eyes. Dark secrets turn this holiday into a twisted nightmare when "The A List" premieres on Netflix.

"Falling Inn Love"

When Gabriela (Christina Milian, "The Oath") spontaneously enters a "Win An Inn" contest after a rough breakup and wins, she suddenly finds herself leaving her big-city life in San Francisco for a charming New Zealand town, where she plans to restore the inn and sell it. Enter the handsome local contractor, played by Adam Demos ("UnREAL"). As the two team up to restore the inn, both he and the town begin to grow on Gabriela. Can restoring the inn also restore her broken heart? Find out when "Falling Inn Love" premieres on Thursday, Aug. 29.

HOLLYWOOD Q&A

By Adam Thomlison
TV Media

Q: Does Kevin Bacon actually do all his own dancing in "Footloose" or did he have a double to do all the moves?

A: Here's how you know the 1984 classic "Footloose" is a dancing movie: Kevin Bacon actually had four dance doubles, while also managing to do most of the dancing himself.

In an interview with People magazine in 2011, when the remake of the film came out, Bacon opened up about his experience doing the movie that would make him a star.

He said he did the majority of his own dancing, until it came to the over-the-top warehouse scene. For the few people on Earth who aren't familiar, the premise of the movie is that Bacon's character moves to a small town that has banned dancing, and he riles up the local youth to fight the unjust (and very un-'80s) rule. At the character's low point, he runs off to an abandoned warehouse to just dance out his feelings of frustration. What follows is one of the strangest and also most beloved solo dance scenes ever put to film — one that's as much a gymnastics recital as a dance sequence.

Indeed, two of Bacon's four dance doubles were actually gymnasts — they were there along with a traditional dancer and a stuntman. "There were five of us in the f———— outfit, and I felt horrible," Bacon told People.
